Blaimore Lodge, No. 68, meets in their Hall, Victoria St., every Tuesday at 8 p.m. Visiting brothers welcome. FRANK ZILLER, N.O. J. B. HARMER, R.S.

CROWS' NEST ENCAMPMENT NO. 8 Meets in the I.O.O.F. Hall every second and fourth Tuesday, following subordinate lodge meeting. J. B. HARMER, C.P. W. J. BARTLETT, R.S.

Owing to the fire, arrangements have been made to hold all meetings in the Masonic hall until further notice.

An interesting game of football was played at Bellevue last evening between Coleman and Bellevue senior teams. In the first half Coleman scored 3 and Bellevue 1. In the second half Bellevue added four, thus defeating the visitors to the tune of 5 to 3.

### Automobilists To Convene at Lethbridge

Arrangements have been made for a convention of motorists affiliated with the Alberta Motor League, to be held at Lethbridge on July the 23rd, 24th and 25th, which promises to boost above all other questions that of better roads through the Crows' Nest Pass, and the establishment of the All-Red Route through here. The meeting on the 23rd will be held in the Board of Trade Building at 9:30 a.m. and 2 p.m., at which all members are expected to attend, so that a strong organization may be effected to protect the interests of good roads throughout the southern part of the province. Mr. J. R. Smith, secretary of the Crows' Nest Pass Automobile Association and the Crows' Nest Pass National Highway Association, has been chosen as a member of the preliminary committee. Other members of that committee are W. A. Blomer-Hassett, of Taber; Hugh Crawford, of Lethbridge; J. W. Macdonald, of Macleod; J. Y. Card, of Cardston; P. Lund, of Lethbridge; A. M. Morrison, of Coleman; T. S. Gregson, of Cardston; A. Young, of Macleod and J. W. Bawden and D. D. Hoyt, of Lethbridge.

It is proposed to conclude the convention by a trip to Waterton Park, leaving Lethbridge on the afternoon of the 25th and returning on the 27th. This trip will be filmed by the Dominion Government for publicity purposes.

### Letter of Appreciation

Frank Sanatorium,  
Frank, Alta.,  
July 10th, 1919.

Editor Blaimore Enterprise,  
Blaimore.

Dear Sir:—Please allow me the space in your valuable paper to thank the good ladies of the Frank Branch of the Canadian Red Cross for the most enjoyably motor drive and picnic afforded the patients and nurses of the institution. The drive to and from the Lake was delightful, the food was scrumptious and the ride on the Lake left nothing to be desired.

The patients and the nurses all returned to the Sanatorium feeling that they had been most gorgeously entertained, and have nothing but praise for the Frank ladies.

Thanking you for all past favors,

I am, yours very truly,  
C. H. KERH, A. D. R.

### Lundbreck Sports Very Enjoyable

Lundbreck, July 5.—The Lundbreck sports were held on Saturday, June 28th and were an unqualified success. The weather was perfect, clear and bright, but not too warm. The large crowd who attended entered with enthusiasm into all the contests and races and a most enjoyable time was spent by all. During the afternoon tea was served in the rectory by several ladies. Mrs. Grove and Mrs. Roberts being in charge. Mrs. Denmore took charge of the ice cream booth. Mrs. Penn and Mrs. Carswell of the fruit, soft drinks, etc. The sports were directed by J. H. Hughes, ably assisted by George Penn, Charles Cartwright, W. Green, John Gerard and R. B. Harrison. The judges were W. T. Eddy, G. W. Fennelly and Jas. Milvain. All juvenile first prize winners were presented with a watermelon by A. M. Denmore.

An interesting event was the tug-of-war between Lundbreck school headed by Miss Carruthers, and Lee school led by Miss McWilliam. Lundbreck school was

### Civil Servants are Now Classified

Salary Increases Provided in Legislation at Ottawa—60,000 Employees are Affected by New Schedules

Classification of the 60,000 positions in the Civil Service of Canada, establishing new minimum rates of pay for each class, is provided for by a measure now before the House of Commons.

The classification embraces practically all of the 60,000 positions in the Dominion service in the territory from Halifax to Victoria, and scattered through many foreign countries. Sixteen hundred kinds of employment are described and standardized. The employments standardized comprise practically all of the recognized occupations and are not confined to clerks, stenographers, bookkeepers and cashiers as might at first thought be assumed. A hasty glance through the classification brings to light such titles, janitor, cook, junior hydrometric engineer, patrol sergeant, elementary teacher, astronomer, grain weighmaster, immigration inspector, inspector of electricity and gas, chemist, truckman, parliamentary counsel, departmental librarian, able seaman, trade commissioner, director of park animals, graduate nurse, senior physician, postmaster, forward sorter, electrician.

### Was Dead, But Now Liveth

It was reported upon the people of this district on Tuesday when Sergt-Major James Painter sprang into our midst. Sergt-Major Painter was formerly a member of the R. N. W. M. Police detachment at Bellevue and went overseas early in 1915. In November 1917, a dispatch through Ottawa announced that Sergt-Major Painter had died of wounds received in action, and general sympathy was expressed by his numerous friends throughout this district. He was a member of the Oddfellows lodge at Bellevue, and was struck by surprise on Tuesday afternoon to find a special memorial framed in the Bellevue lodge room. While overseas, Mr. Painter visited some of his old haunts in Wales and took unto himself for the better a young lassie of the Land of Song.

### Saturday July 19th Set as Peace Holiday

Saturday, July 19th, has been officially fixed as a public holiday for the celebration of peace. We understand that arrangements are being made by a committee representative of veterans and citizens for an excursion to Crows' Nest. It is hoped that at least three cars will be added to the west-bound morning train from Macleod, to be returned by the regular evening train at 9 o'clock. This should afford an excellent outing.

victorious. The tug-of-war between married and single men was closely contested; the married men being successful.

The foot-races over, several saddle-burn races were run. In the evening the Lundbreck baseball team scored a success over the Cowley team to the tune of 16 to 15. A dance was held from 8 to 12 in the Adam House, a large crowd attending and a most enjoyable time was reported. The dance committee were J. H. Hughes, George Fulton and Jack Robinson. A substantial sum was raised toward a piano for the proposed memorial hall. Great credit is due to everyone who worked so hard to make the day a success.

## Britain Planning Air Supremacy

Government Subsidies Urged By  
Committee of Civil Investors

London.—Great Britain is actively engaged in laying the foundation of a world-wide aerial supremacy as complete as was her maritime supremacy prior to the war. Her plans to achieve this important objective were started before this country entered the war.  
Moreover, she is completely convinced that aerial transportation will revolutionize her widespread empire and firmly weld it together by the speed that is the chief attribute of aircraft.

Realizing the importance of aircraft would play in the economic development of the world in general, and the reconstruction period after the war in particular, the British Government appointed the Civil Aeronautics Committee May 22, 1917, to "consider and report to the Ministry with regard to:

(1) The steps which should be taken with a view to the development and regulation after the war of aviation for civil and commercial purposes from a domestic, imperial and an international standpoint.

(2) The extent to which it will be possible to utilize for the above purpose the trained personnel and the aircraft which the conclusion of peace may leave surplus to the requirements of the naval and military services of the United Kingdom and overseas dominions."

The report lays down the possibility of commercial air routes throughout British dominions, but says in connection therewith:

"We recognize, however, that military considerations must override all others."

By far the most remarkable portion of the report is the reservation made by Frank Pick, one of the members of the committee, when signing it. In it Mr. Pick says:

"The strategic position of this country in relation to the air differs fundamentally from the strategic position in relation to the sea. So long as the shores of the North Atlantic are occupied by the leading civilized peoples so long the British position is advantageous as a centre of sea power. But if air power is to usurp to any degree the place of sea power, and this seems probable so long as flight over land holds appreciable advantages over flight over sea, so the position of a country placed centrally as regards land must be superior to the position of a country placed centrally as regards water.

The right to pass across other national territory without hindrance, relief from varying terms and conditions attaching to flight which may be onerous and irksome, the absence of customs restraints or tariff restrictions, and generally the absence of the apparatus for hampering or restricting trade are all wanted. On all these grounds it is submitted that the case for an international settlement is strengthened."

The committee has exhaustively studied the possibilities of aerial

transport with rigid dirigible airships. The investigation covers special voyages made in the giant dirigible airships of the R-34 type developed by the naval section of the British air force.

General Maitland himself in a review of the airship situation makes this prediction:

"The many practical advantages which the airship possesses for commercial purposes are not, perhaps, always appreciated.

"Present day airships, which in no way approach the limit of size, have a disposable lift of more than thirty tons, which enables them to embark on long flights without the necessity of descending for replenishment of fuel.

"There is no reason why an airship should not be fitted with engines as silent as those of a motor car. Sleepers in the cabin can, in any case, be provided well away from the power plant, and there is complete absence of such noises as the singing of wires which would detract from the comfort of passengers in an airplane.

"The power plant can be readily split up into many units, as desired, and failure in the power plant does not involve immediate descent, while running repairs can easily be effected in the air.

"Even with landing grounds only a few apart, an airplane would be compelled to fly at a minimum height of about 3,000 feet, whereas an airship can cruise safely a few hundred feet above the ground, which considerably enhances the pleasure of the passengers by affording them an opportunity of enjoying the scenery."

## Market For Canada's Flax

Great Opportunity for Exporters in This Country

Montreal.—If Canada has the flax, then there is a splendid market open to her in the United Kingdom. That is the opinion expressed in a report by Mr. John R. de, of an established firm in London, who has visited many Canadian centres in order to ascertain the supplies of flax available for export from the Dominion. Before the war, Mr. R. de pointed out, Great Britain acquired the bulk of her flax from Russia and Belgium. At one stroke, Russia is out of the market, while the supplies from Holland and Belgium are very limited, hence the British trade has cast its eyes toward Canada in the hope of finding a source of supply here. Mr. R. de pointed out that if Canada could compete with foreign countries, he did not see why she did not make a bid for that market and thus establish another export for expositors. This was the opportunity for Canada to develop this market while the other sources of supply are unable to continue under the abnormal conditions. With proper handling and a good quantity of flax, there was a great opportunity for expositors in this country. To handle the flax from the sowings to the finished product he did not think was advisable in Canada at the present time.

When Christ is truly preached men naturally desire to confess Him in baptism. In many quarters baptism has been unduly emphasized, but in others it has been disregarded. It is highly important that an intelligent understanding of its meaning be possessed; for that of which Jesus Christ gave an example and a command is highly important.

3. Philip baptizing the eunuch (v. 36). Having secured from the eunuch the proper confession Philip baptized him. It is faith in Christ that saves, but those who have genuine faith desire to seal it in baptism.

4. The eunuch rejoicing (v. 39). Confession of Christ brings joy. Those who obey the commandments of the Lord can go on their way rejoicing.

An Aviator For Life

Alcock Is One of Those Who Really Loves the Game

Capt. Jack Alcock, the Englishman who piloted the Vickers-Vimy biplane from Newfoundland to Ireland, is an aviator for life, so far as he knows. He has never followed any other calling since he flew first, in 1909, when he was 17 years of age. He has designed machines and he has built them, but always has activities have centered about some phase of flying. There are others to whom their work is a work, and who are just as bored when they take a plane into the air as the most staid book-keeper at his desk, but Alcock is one of those who really loves the game and who is radiantly happy from the moment he begins to tap from his flying clothes until he lands and takes them off.

Yes, I guess I can give your son a job. You are one of our largest stockholders. What can your son do?

"Well, we have a number of young men doing that. He might assist one of them."

The silent fisherman is the most successful. Girls should remember this when angling for husbands.

## SUNDAY SCHOOL LESSON

LESSON FOR JULY 13

BAPTISM

1. The Apostles' Commission (Matt. 28:18-20).

The authority of Jesus (v. 18) gave Him all authority in heaven and on earth. As mediator and coming king, He possessed all authority. This authority extends over all the material world, angels, wicked men, devils and His own people. God highly exalted Him and gave Him a name which is above every name (Phil. 2:9). There is no other way of salvation, for the entire matter of redemption is in His hands (Acts 4:12). Since God has so highly honored Christ, it is extreme folly to expect to be saved while disregarding Him.

2. The obligation of the apostles (v. 19-20).

(1) It was to teach, that is, make disciples of all the nations (v. 19). They were to make known to the whole world that Christ had died to save sinners and that God had committed to Jesus the redemption of the world. Those who are Christ's disciples are bound to proclaim Him to others.

(2) Baptize those who believe (v. 19). This is the divinely appointed way of making a public confession of faith in Christ. The disciples must publicly take a stand for Christ. The application of water symbolizes the purifying effect of the blood of Christ and solemnly dedicates to the service of God. This baptism must be in the name of the Father, Son and Holy Ghost, showing that the believer has been brought into definite relationship with each member of the Holy Trinity.

(3) Teach the disciples obedience (v. 20). Obedience is not enough, it must issue in obedience. Faith must result in works. To call Jesus "Lord" and not to do the things which he says profits nothing.

3. The all-sufficient promise (v. 20). The Lord had told the disciples what would happen to them after He had gone away. He made it plain that, though all kinds of afflictions awaited them, though the difficulties were great, nothing mattered so long as they had the presence and fellowship of the all-powerful Savior and Lord.

II. The Baptism of the Eunuch (Acts 8:34-40).

1. Philip preached Jesus Christ (v. 35). At the invitation of the eunuch, Philip joined him to the chariot and found the eunuch reading from the fifty-third chapter of Isaiah. Beginning with this Scripture he preached Christ. He did not preach Christ as a great teacher, but as a Savior who had saved and did intend to save the sinner. He preached Him as one who had offered himself as a ransom for many. The fact that the eunuch, a great statesman, needed an interpreter of the Scriptures, even such a plain passage as the fifty-third chapter of Isaiah, shows the absolute need of a preacher. The printed page is valuable, but there will always be the need of a preacher. The gospel needs to be experienced before one can be a witness of its saving power.

2. The eunuch receiving baptism (v. 36).

When Christ is truly preached men naturally desire to confess Him in baptism. In many quarters baptism has been unduly emphasized, but in others it has been disregarded. It is highly important that an intelligent understanding of its meaning be possessed; for that of which Jesus Christ gave an example and a command is highly important.

## Shock Left Her Weak and Nervous COULD NOT SLEEP

When the system receives a shock of any kind, the heart becomes weakened, the nerves unbalanced, the appetite is lost, and the feelings come over you, you can't sleep at night, and you wonder if life is worth living.

To all those who suffer from nervous shock we would recommend Milburn's Heart and Nerve Pills as the best remedy to tone up the entire system and strengthen the weakened organs.

Mrs. J. Bunyan, Pilot Butte, Sask., writes: "I have used Milburn's Heart and Nerve Pills after having suffered from a terrible shock to my whole system. I was so utterly weak and nervous I could not sleep at night. I was almost very poor. I could not walk across the floor without trembling all over."

Fate Of An Arctic Aviator

Three Intrepid Men Have Never Been Heard From

The recent attempt to cross the Atlantic by aeroplane recalls to mind the fact that an attempt was made to fly to the North Pole in a balloon 20 years ago, by the noted Swedish scientist and aeronaut, Salomon August Andree and his two companions, Nils Strindberg and Ferdinand Frakel.

The three intrepid men were last seen swinging over the snowy peaks of Spitzbergen and have never been heard of since. Their fate is a mystery locked away in the vast silences of the lands of eternal snow and ice.

Andree was not only an expert balloonist, he was also a skillful scientist, and he had carefully studied the question of Polar explorations. He had observed that at certain seasons of the year a steady current of air flowed toward the north. Andree's plan was to set sail in this current, blow over the ice, alight and set a favorable current to bear him home again. This, it must be remembered, was before balloons and aeroplanes had reached their present state of efficiency.

King Oscar II. of Sweden himself was a heavy subscriber to the fund which made the attempt possible, and at last, after months of waiting, the balloon was cut loose from its moorings on the 11th of July, 1899. Disaster threatened at the very outset, for the balloon drifted suddenly, and only the frantic throwing overboard of ballast enabled the vessel to rise. It was not long before it was lost to sight. It was never seen again.

Twelve months of anxiety and suspense followed, and then the Swedish government sent out three search parties. Various rumors were traced to their source, every possible clue was followed up, but without any tangible result. One circumstantial report was to the effect that the Eskimos in the Northwest had seen a "green white house" descending from the skies, and that three men, starved to death, had been found in it.

Tracing parties were sent out, but it was impossible to find the tribe, and the truth of the story was left in doubt.

Campaign On Anarchists

U.S. Government Makes Provision for Vigorous Steps Against Extremists

Washington.—Provision for vigorous steps by the federal government against bomb throwers and other anarchists and radicals, declared by government officials, may be plotting the overthrow of the government, and spending \$2,000,000 monthly to that end, were made in the sundry civil appropriation bill, as reported to the senate.

In reporting the bill, the senate appropriations committee increased from \$1,400,000 to \$2,000,000 the fund of the department of justice for general suppression of crime. In addition, it added \$300,000 for a special fund to enforce the law against alien anarchists through deportations.

Canada's Aerial Record

London.—At a dinner of the Canadian air force at Shoreham the pilots assembled there had destroyed an aggregate of 219 enemy machines. Gen. Currie announced that the air force would be maintained in Canada. He advised that the Canadian air force of units that had served in France in the reorganized militia to maintain the traditions built up in the field.

## English Primate And Dry America

One of the Bravest Things History Had to Show

London, England.—Presiding at the annual meeting of the Church of England Temperance Society at Lambeth Palace, the Archbishop of Canterbury described the drink prohibition in America as one of the most remarkable episodes in the whole history of social reform. "Our American brothers," he said, "always do things on an exceptional scale. There are never any half measures or any doubt about what they mean."

His Grace said that he had found the strongest difference of opinion amongst Americans as to what would happen during the next year. "If everything went as it was supposed to go, America would be dry from ocean to ocean. How far facts would correspond with theory, and practice answer to law, they could not say, and he did not think it was wise to dogmatize to what would be the result of prohibition. None of them, however, would be in any doubt as to the thankful recognition they would give to what was one of the bravest things history had to show—of a nation grappling with a nation's peril in England, the best general public opinion had supported the restrictive policy which had been in force even where it had been most severely applied. Where restrictions were thought likely to prove most unpopular they had proved nothing of the kind. It would be famous today, because war was over, in regions where restrictions had proved to be not very unpopular, to relax these restrictions, because a certain number of people had interests involved. They must be restrained to use every bit of influence they could to secure the continuance of restrictions which had been proved to work so well.

His Grace said that he had found the strongest difference of opinion amongst Americans as to what would happen during the next year. "If everything went as it was supposed to go, America would be dry from ocean to ocean. How far facts would correspond with theory, and practice answer to law, they could not say, and he did not think it was wise to dogmatize to what would be the result of prohibition. None of them, however, would be in any doubt as to the thankful recognition they would give to what was one of the bravest things history had to show—of a nation grappling with a nation's peril in England, the best general public opinion had supported the restrictive policy which had been in force even where it had been most severely applied. Where restrictions were thought likely to prove most unpopular they had proved nothing of the kind. It would be famous today, because war was over, in regions where restrictions had proved to be not very unpopular, to relax these restrictions, because a certain number of people had interests involved. They must be restrained to use every bit of influence they could to secure the continuance of restrictions which had been proved to work so well.

## Their Pride Is a Deeper Thing

The fact that an Overland Model 90 stock car recently broke the world's non-stop high gear record in Oklahoma, U. S. A., does not add to the pride of Model 90 owners.

Their pride is a deeper thing. It has developed through weeks and months and years of wonderful personal experience with Model 90 cars, under the trying conditions of every day's demands.

To really know how well a car can be built for so economical a price you must know Model 90.

## C.P.R. Offers Cup For Hard Spring Wheat

In connection with the International Soil Products Exposition, which will be held at Kansas City, Mo., September 34th to October 4th, the Department of Colonization of the Canadian Pacific Railway is offering a silver cup of the value of \$500, for the best hard spring wheat exhibited. It is hoped that every farmer in Alberta, who has a good sample of wheat this year will submit a half bushel in this competition. Those competing for this cup will automatically become competitors for the prizes offered by the International Farming Congress in this class, which include a first, second and third prize. In addition they have a chance of winning the sweepstakes for wheat. The winning sample of hard spring wheat is usually the best exhibit of wheat shown at the exposition and thus wins the sweepstakes prize, and the exhibits from Western Canada generally carry all before them in this class. Last year the C. P. R. cup, the sweepstakes for wheat and the first prize for hard spring wheat were won by Seager Wheeler, of Roathurst, Sask., with H. B. Sheely of High River, Alberta, a good second. No cup was offered by the C. P. R. in 1917, but the sweepstakes for wheat and first prize for hard spring wheat were won by Samuel Larcombe, of Birtle, Manitoba, in that year.

In addition to the above other valuable prizes will be offered for every variety of field crops. Of late years farmers from Western Canada have carried away a lion's share of three prizes, and no doubt their exhibits will be conspicuous

## "I Remember"

The following beautiful poem is copied from an exchange and was never intended to apply to the high-class restaurants for which Blairmore has become famous:

I remember, I remember  
The Chick'n, where once I fed  
On 'Valerie Pot and 'Mousave'  
On 'Lion' an' 'egg an' bread'.  
The pie crust that I gave to "Spot"  
And 'vow'd I buy a wreath  
For that bountiful animal  
Or else a set of teeth.

I remember, I remember  
The eggs I had each morn,  
The little chicks with feathers on  
All ready to be born.  
The tiny helpings that each meal  
Were dumped upon my plate,  
I had to get a microscope  
My T-Love to locate.

I remember, I remember  
How oft I used to swear  
On 'und'-'g on my butter-pat  
A look of 'Loney's' hair.  
I remember, I remember  
That good old Chinese smell,  
That went with all the grub I got  
And made it taste like— (censored)

I remember, I remember  
The helping on the floor,  
By nimble fingers gathered up  
I did not ask for more.  
The apple pie of ashion line  
The tepid spouts that leak,  
The toast he always used to make  
On Sunday for the week.

I remember, I remember  
The time I ordered steak  
T'was made of solid rubber and  
T'would bend but never break  
The rabbit pie—it looked like cut  
The lish I used to hate.  
Made out of scraps and other things  
Too numerous to state.

I remember, I remember  
The way I used to feel,  
When I got charged up fifty cents  
For every (censored) meal.  
I remember, I remember  
Each time I pass the door,  
To thank my stars I haven't got  
To eat there any more.

## Hints For Housewife

Never throw away the bones and scraps. Feed them to your husband or the dog.  
Nitric acid will take fruit stains out of linen.  
To keep milk from souring, feed it to the cat.  
Always have a flannel handy. The crockery boy may get tired.  
Don't lose your temper. If the chimney smokes. Remember it can't chew.

## By-Law No. 4

A By-Law relating to the issue of Debentures of The Coleman School District No. 1216 of the Province of Alberta.

WHEREAS it is necessary and desirable that the sum of Twenty-Five Thousand Dollars (\$25,000) should be borrowed on security of The Coleman Public School District No. 1216, the Province of Alberta, for the purpose of purchasing ground, erecting a brick School House, heating, furnishing said building, fencing ground and procuring supply of water, repayable to the bearer in twenty-five equal consecutive annual instalments with interest at not more than six per centum per annum.

NOW, THEREFORE, THE BOARD OF TRUSTEES OF THE SAID DISTRICT ENACTS AS FOLLOWS:

1. That the necessary proceedings be taken under The School Ordinance to obtain the sanction of the Board of Public Utility Commissioners of Alberta to the said loan;

2. That upon the Board of Public Utility Commissioners authorizing, in writing, the Board of Trustees to borrow the said sum of Twenty-Five Thousand Dollars, or any less sum, pursuant to the said Ordinance, debentures of the said District be issued for such amount as is so authorized, payable to the bearer in twenty-five equal consecutive annual instalments with interest at not more than six per centum per annum, payable annually, and said debentures shall be executed by the Chairman and Treasurer of this Board.

General Merchants, Bellevue, Alta.

Dear Sir or Madam:

WE cannot deny the fact that the cost of living is very high and labor conditions are remaining unsettled, and we wonder as to which would be the best policy to follow in order to pull through these hard times without hardship. Our answer is this: Be very careful in spending your money—spend it wisely and carefully.

Buy where you can buy the same goods for less money, or better goods for the same money—such as we are offering in this circular; and we know beyond the shadow of a doubt that if you will investigate the remarkable values offered to you now, and compare them with what you can get elsewhere, you are sure to buy here good goods for less money, and still have some to spare. This list of prices cannot be overlooked. Study it carefully.

### The Tax Recovery Act

The various municipal acts in force in the province provide for forfeiture proceedings being taken against land on which taxes are in arrears. By these proceedings the title to the land is forfeited to the municipality, subject to redemption within a year, and if the land is not redeemed then it may be sold by the municipality. This method of tax enforcement has proved to be both expensive and tedious, as it requires the making out of a tax enforcement return, abstracts of title are required to be secured from the land titles office for all lands on the said tax enforcement return; notices have to be sent by registered mail at least sixty days prior to date of the court at which the tax enforcement return is to be continued to all parties having any interest in the land and notice of court has to be advertised in the local newspaper and in the Alberta Gazette. After the tax enforcement has been confirmed additional abstracts have to be obtained, two more sets of notices have to be issued and advertisements again inserted in local newspapers and Alberta Gazette, giving date of final forfeiture. If the land is finally sold, it is at least fourteen months from the date of commencement of forfeiture proceedings before the municipality realizes all its taxes, and if, as frequently happens in urban municipalities, the land cannot be sold at all, the municipality does not receive its taxes and in addition is out a large amount spent in obtaining abstracts, printing and mailing special notice, advertising date of court, advertising date of final forfeiture and so on.

Because these proceedings were so expensive, burdensome and unsatisfactory, the Hon. A. G. MacKay, minister of Municipal Affairs, at the last session of the legislature, introduced legislation under the name of The Tax Recovery Act, which will greatly simplify and reduce the expense of the tax enforcement proceedings in future.

Under the Tax Recovery Act, lands on which taxes are in arrears on the first day of July of the year following that in which they are levied, are liable to be sold for taxes and the treasurer, collector, or assessor, as the case may be, of each city, town, village or municipal district shall, on or before the fourteenth day of August in each year, submit to the mayor or reeve of the municipality, a list of all lands that are liable to be sold for taxes. The mayor or reeve, on satisfying himself that the list is correct, gives the proper official a warrant authorizing him to advertise for sale all the lands included in such list. Such sale is required to be advertised once a week for two consecutive weeks in a newspaper or newspapers published in the municipality, or if there is no newspaper published therein, in a newspaper circulating in the municipality. Such advertisement must be published not less than six weeks before the date of sale and is required to contain a list of the lands to be sold. In addition to the publication of the list as above mentioned, there shall be published once during each week after the period of two weeks above mentioned, but prior to date of sale, a notice of such sale and a statement as to where the list of lands may be seen. Notice of the sale is also required to be published in two issues of the Alberta Gazette, the last issue to appear not less than two weeks before the date of sale. No lands, the title to which is vested in the crown, can be included in such sale.

Lands so offered for sale shall be sold to the highest bidder, and if they cannot be sold for the full amount of the arrears of taxes and costs, they may be sold for a lesser sum, subject however, to a minimum value that may be placed upon them by the council of the municipality. This minimum value shall not be advertised, but shall be treated by the treasurer as the open selling price. Any lands which are not sold at such a sale shall be included in the list of lands offered for sale the following year. The purchaser at the tax sale will only be required to pay at date of sale, the amount due the municipality for arrears of taxes and costs even if the land is sold for more than the arrears of taxes and costs.

As soon as the sale is completed, a return showing the lands sold will be sent to the registrar of the land titles office for the registration district in which the land is situated, who shall register against such land a memorandum of sale, so that any prospective purchaser or money lender may be protected. All lands sold at a tax sale are subject to redemption within a period of one year from the date of sale. Where lands sold are not redeemed by the end of the year, all parties shown by the records of the land titles office to be interested in any way in the land, will forthwith be notified of that fact by registered mail and after a period of sixty days has elapsed from the expiration of the redemption period, a return of the unredeemed lands will be submitted to a judge of the district court, who, on being satisfied that due notice has been given and that all matters in connection with the proceedings are regular, shall make such order as to transfer as he deems advisable and in accordance with this order the treasurer shall then issue transfer to any tax sale purchaser, on receiving from him payment of the balance outstanding, and such transfer shall entitle the purchaser to an indefeasible title, except as to claims of the municipality or the crown.

### The Pass 14 Years Ago

(From the Frank Page 1905)

July 13, 1905—J. A. McDonald has decided to withdraw as labor candidate for the forthcoming election.

Much complaint is being heard from the truck farmers of the valley that their business is being greatly injured by the Chinese pedlars, and farmers are casting about for some sort of an arrangement calculated to eventually eliminate the competition. Truck farmers met in town and discussed the situation. One suggested that farmers bring in great quantities of green stuff and leave it with the merchants to be disposed of at any price, the idea being to make it so cheap that the Chinese could not operate at a profit. Another plan suggested was that farmers all get together and establish a depot in Frank, to which to send all their produce to be distributed by peddling-wagon to houses in all the local towns.

A party composed of a large number of the best known newspaper writers of Washington, D. C., passed through The Crow on Tuesday, their purpose being to write articles that will influence immigration to the Dominion.

Several new citizens from England arrived during the week.

Jimmy Turner, the young son of Samuel and Mrs. Turner, had a close call to being seriously injured on Monday last. While riding on an express wagon he fell into one of the hind wheels.

Colonel Lowery, the hunting financier of the Female Ledger, was a visitor to Frank on Friday last.

Doc Livingstone, who has been engaged the last few days laying out the preliminary route for the Flathead trail from Blaimore to the South Fork, was expected to reach Blaimore last night. Capt. Beche, who is to have charge of the work, will now go over the route, and when approved work will start immediately.

The call has gone forth for a general convention of the Liberals of the new province of Alberta to be held in Calgary on August 3rd.

Any monies paid to the municipality over and above the taxes due, shall be paid to the persons declared by an order of a judge of the district court to be entitled thereto.

By comparing the procedure under the Tax Recovery Act with the provisions in regard to tax enforcement that have hitherto been in force, it will be noted that under the Tax Recovery Act it is only necessary for the municipality to obtain abstracts of title and to send notice by registered mail, in connection with the lands which are sold and not redeemed, whereas under the forfeiture proceedings that have been in force under our municipal acts, it is necessary to obtain abstracts of title of all lands in which taxes are in arrears, to send notice by registered mail to all parties shown to be interested, then during the year allowed for redemption after the land has been forfeited, it is necessary for another set of abstracts to be secured and two more notices to be sent to each person shown to be interested in the land, and after all this trouble and expense the municipality in many cases is unable to collect any taxes whatever.

The Tax Recovery Act provides for the immediate sale of land for taxes, without waiting for a year as required by the forfeiture proceedings. If the land can be sold at all this brings in the taxes immediately. If it cannot be sold, very little expense has been incurred. In addition to making provision whereby municipalities may obtain their taxes more quickly, the Tax Recovery Act provides a simple method whereby action may be taken at an expense that will not be more than one-third of what it was under the forfeiture proceedings set forth in different municipal acts, and if the land is worth the taxes the municipality gets results quickly, while if the land will not sell, the municipality has not been put to any great expense.

The provisions of the Tax Recovery Act will come into force in the year 1920, and on and after the year 1920 the tax enforcement proceedings provided for in the municipal acts, will cease to be operative except insofar as proceedings instituted prior to the end of the current year are concerned.

# Kaiser Will Have Trial In London

London. — William Hohenzollern, the former German emperor, will be brought to England in a British ship and imprisoned in the Tower of London, according to the Daily Mail.

The death penalty will not be sought, the newspaper points out, but if he is found guilty, the allies will ask his banishment for life to a remote island, following the precedent of Napoleon's exile on St. Helena.

The international trial court had intended to try the former emperor alone, the Daily Mail says, but it is possible that the former crown prince Frederick will also be arraigned before it.

The note to Holland requesting the extradition of the former German emperor, it is understood, will be signed by twenty-two or twenty-three of the powers.

The former German emperor's guards at Amerongen have been increased, according to the Daily Mail correspondent, and his staff has been reduced. Lieut-Gen. Von Estorff has left for Berlin. Well-informed circles at The Hague, this correspondent says, do not believe that Holland will give the ex-emperor up to the allies. They are of the opinion that he will remain in Holland for the rest of his life.

Paris. — The officers' corps of the Prussian army and German navy, according to a Berne dispatch to the Havas Agency, have sent a lengthy appeal to the Queen of Holland not to permit the extradition of the former German emperor.

Winnipeg Strike Solved Nothing Winnipeg. — The Western Labor News says:

"After nearly nine weeks of strike and strife the metal shop workers went back to work. That is, the strike is off, though some men are not reinstated and some others refuse to go back on the conditions offered."

"The big three employers are still opposed to collective bargaining, as understood by trades unions. They refuse to deal with the business agents of the unions. Some of the smaller firms do recognize the unions in the true sense."

Saskatoon. — At the Empire theatre in Saskatoon and the Regina theatre, Regina, for the fair weeks there will be repeated three times each day one of the famous Pantages vaudeville shows. These will comprise some 20 or 30 of the premiere vaudeville attractions of the day, offering, in conjunction with movies, a well-known show that should be a welcome added attraction to the already strong fair attractions.

Getting Rid of a Few Charleston, S.C. — A railroad of Germans, formerly interned at Fort Oglethorpe, embarked on the transport Princess Matoka for Rotterdam to be repatriated.

# Postal Workers Have Failed To Attain Object

Ottawa. — The government has decided that it cannot recede from the policy it has so far pursued in the matter of locked-out postal workers in Winnipeg. A delegation of members of the Amalgamated Postal Workers took a train back to the West, having failed in an attempt to persuade the government to reconsider its policy of making permanent appointments of postal employees who acted as strike breakers when the regular postal employees came out in a sympathetic strike on May 15.

The delegation was composed of C. Silvert, president of the Amalgamated Postal Workers, Victoria; L. Pick-up, Winnipeg; J. V. Johnston, Winnipeg; and A. Venables, Calgary.

"We came at the request of the strikers," said Mr. Silvert, "with a view to securing a modification of the position the government has taken on this question. We could not ask for less than reinstatement for the employees locked out."

"In an interview with Sir Robert Borden, the premier said the question resolved itself into three points:

"1. Reinstatement as requested."

"2. To modify its attitude and re-instate some of the men; or,

"3. Adhere rigidly to the terms of the ultimatum issued by Hon. Mr. McPherson."

"We went before the cabinet for its reply, and it does not see its way clear to recede from the position it has already taken. We have failed in our object."

## Belgium Ratifies Peace Treaty

Patriotic Demonstration in Parliament in Course of Proceedings

Brussels. — The Belgian foreign minister introduced bills in the chamber ratifying the treaty with Germany and the agreements connected with the treaty. The president of the chamber read a letter from King Albert congratulating the chamber and the country on the victory achieved after the horrors of war and exhorting the country to be united in the efforts necessary to the work of restoration and reorganization. The reading of the letter was greeted with a great patriotic demonstration.

## A Huge Contract

Reconstruction Is Started By A Big Outlay In France

Paris. — A vast reconstruction program for the whole of France, at an estimated cost of 40,000,000 francs was announced in the chamber of deputies by M. Bedouce, budget reporter, during the debate on public works. The plan includes reconstruction of railways, some of which will be electrified, and large projects for building canals and improving harbors.

New York. — A contract for rebuilding of the war ravaged Nancy district of France has been awarded to the Vulcan Steel Products company of New York, at an estimated figure of \$250,000,000, it is learned in financial circles here.

## Cossacks Break Through

Ekatierino. — The Don Cossacks have occupied Ekatierino and broken the Bolshevik front north of Millerovo. In their successful advance the Kuban Cossacks put to route four infantry and two cavalry regiments of the Bolsheviks. West of Ekatierino, the Bolsheviks have been defeated on the Kertev peninsula on the eastern end of the Crimea.

## "Black Watch" The Best Black Plug Chewing Tobacco on the Market

Revolt Stalls in Berlin Berlin. — The communists' heaven has again arrived at the fermenting stage in Greater Berlin, and there were indications that the strike movement may develop into a political insurrection. The candor and boldness with which the independent Socialists and their Communist henchmen are playing their cards shows they feel more sure of their footing than during the March revolt.

## Polish Claims To Successes

Ukrainian Front Pierced and Bolshevik Forces Repulsed Everywhere

Paris. — The Polish forces have started a counter-offensive along the whole Galician-Volynian front, according to advices from Warsaw. The Poles claim that they have everywhere broken through the Ukrainian forces, and that the Lemberg-Halicz-Stanislaw railway line is again in Polish hands. The enemy suffered severe casualties, 3,000 prisoners, 30 machine guns and huge quantities of arms and munitions.

It seems that the Ukrainians were everywhere taken by surprise and gave way at all points. The Poles occupied Brody, Pluchow, Pomorzany and Brzezany, taking 1,000 additional prisoners and much booty. The Lemberg government says that the Poles have pierced the Ukrainian front at several points. Crowds of Ukrainian prisoners are arriving at Lemberg and the population of the devastated regions are returning. Bolshevik forces began an attack on the Polish front, but were everywhere repulsed.

## Senate Refused To Change Vote

Ottawa. — The senate has voted down the motion of Sir James Loughridge government leader, that they do not insist on their amendment on the prohibition bill, by a majority of seven, the vote standing 30 to 23.

## Food Riots In Italy

Protests at Price of Food of Serious Nature

Forli, Italy. — After a great meeting here, in which a vast crowd protested against the high cost of living, the people, excited by inflammatory speeches, attacked, sacked and destroyed many shops which refused to sell commodities at lower prices. Soon the fury of the mob made no distinction and had no limits. All the principal shops were plundered and the mobs controlled the entire city. They took possession of torins and transported all kinds of goods and food supplies from the pillaged shops to the chamber of labor.

On the walls of the chamber they wrote: "These goods are at the disposal of the people."

The situation grew worse during the day, assuming a revolutionary character, and the mob continued to loot and destroy all kinds of property. The food riots here, however, differ fundamentally from those at Spezia early in June. At Spezia the rioters looted for their own advantage, while at Forli most of the wheat taken from the shops was transferred to the care of the municipality or the chamber of labor to be distributed to the people or sold at low prices.

The value of the goods stored by the municipality was estimated at 6,000,000 lire. The owners of those shops which escaped sacking brought their keys to the municipality, which is composed of socialists and republicans, and they ordered that the shops be reopened and the goods sold for half price under the supervision of representatives of the demonstrating masses.

Despite this apparent return to order in the city at present, the losses are enormous owing to the destruction of shop fittings and commodities which could not be easily transported, such as gasoline, which was burned in great quantities.

## Peace River Coal Leases Cancelled

Smoky River Leases Were Subject of Investigation By Senate Committee

Ottawa. — As a result of the investigation by the select committee of the senate appointed several days ago to enquire into the question of certain "wildcat" coal leases in the Smoky River district of the Alberta Peace river, some 200 miles north of Edmonton, leases have been cancelled by orders of Hon. Arthur Meighen, minister of the interior. As a consequence the application for the right to build a railway to be known as the Athabasca, Grande Prairie and Vermilion railway will go no further than its present stage.

Officials of the geological survey branch have testified before the select committee that the coal area in question is probably the richest in Canada, and that if developed and connected with the main lines to the south it would be able to supply the whole of the west with coal almost equal in quality to the Pennsylvania anthracite.

## Hoover Resigns As Food Controller

Will Remain as Director of Newly-Organized Grain Corporation

New York. — The resignation of Herbert Hoover as chairman of the board of directors of the food administration grain corporation and reorganization of the corporation under the name "United States Grain Corporation" was announced at the annual meeting of stockholders here.

Hoover's place as chairman will be filled by Julius Barnes, wheat director, who also is president of the corporation. It was said Mr. Hoover would continue as a director, but that his resignation of the chairmanship marked a definite step toward his retirement from public life.

## Builders Are Back

## Reign Of Terror In Russia

Women and Children Are Slain By the Bolsheviks

New York. — A graphic story of a reign of terror in Bolshevik Russia, related by John A. Embury, United States consul at Omsk, the seat of the Kolchak government, who has arrived here on a leave of absence. Mr. Embury declared no language could adequately picture the scenes of murder, violation of women, arson and theft which he had seen personally or had described to him by credible eye-witnesses.

Mr. Embury backed his story, particularly that of the ravage of the city of Ufa, by photographs, many of which he declared he had taken himself, and which record appalling instances of wholesale butchery of women and children.

Mr. Embury said he had visited Ufa immediately after the Bolshevik withdrawal before Kolchak's forces. He learned from survivors of Bolshevik occupation, he said, that the Bolshevik soldiers had looted the entire city and then organized a "government" consisting of committees. One of these committees, he said, was the extraordinary committee on executions.

This committee, he declared, had all members of the city government rounded up, and ordered virtually all of them shot. The head of the committee, he said, had personally executed the president of the council, who was brought before him on a stretcher.

A few days after his arrival in Ufa, Mr. Embury said he followed a crowd of residents into a nearby woods, where they came upon scores of bodies of women and children, disclosed by the melting snow, who had been driven into the woods and brutally slain. He exhibited a photograph showing twenty of these victims, the bodies of many mangled and almost unrecognizable. About 200 bodies were found in the woods, he said. Pupils at the Ufa high school, he said, had been lined up and questioned as to their sympathies, and who did not profess sympathy for the Bolsheviks were shot or put to work of the most degrading character.

At Omsk, a city of about 30,000, Mr. Embury declared 2,000 bodies were found on the outskirts when the Bolsheviks were shot. He displayed photographs of some of these victims taken by Col. Teusler of the American Red Cross.

## Pensions Bill Is Up For Discussion

New Measure Considered Satisfactory By Major Williams, M.P.

Vancouver. — "A new pensions' bill will be brought in parliament this session. It will not please everyone. It does not meet entirely with my approval, but I want to tell you that it undoubtedly meets the most general provisions of any pensions' bill in the world," said Major George B. Andrews, M.P. for Centre Winnipeg, speaking as a delegate at the G.W.V.A. convention.

The statement made by Major Andrews followed the presentation by the resolutions committee of a long resolution comprising no fewer than 17 sections, in which the desires of the veterans as set out in a large number of resolutions from various branches had been incorporated, and which it was hoped that the Dominion convention would endorse.

## Help In Time Of Trouble

Britain and States to Act in Concert in Aiding France

Paris. — The Franco-British and Franco-American treaty, the Journal says, provide that the intervention of Great Britain and the United States on behalf of France against Germany shall be inter-dependent. Great Britain and the United States, it is advised, will only help France by combined action and not separately. The journal declares that their intervention must occur if the disarmament of the Rhine territory is not sufficient to protect France from German aggression.

## No Abatement In Forest Fires

Halibury. — One two men settlers in the bush country west of the town are reported to have lost their farm buildings in the Sharp Lake fire, which is still raging. The victims are named Olsen and Fernelund. Other properties are in grave danger as the flames are spreading before a rising wind.

Some slight showers of rain are reported to have fallen in different parts of the country, but the effect on the fires have been negligible. At Frederic House the plan of the Beaver Board company is menaced, but is still standing.

# British Premier On Making Of Peace

London. — Rt. Hon. David Lloyd George, the premier, had a good reception from all sections of the House of Commons. His speech was largely impromptu and discursive. He told of the peace conference's efforts to prevent war in the future, and reviewed some of the striking restrictions put upon Germany in the treaty signed at Versailles.

Discussing the determination of the allied and associated powers to place on trial William Hohenzollern, the former German emperor, as the man chiefly responsible for the war, he declared that it was a course had been followed after other wars "there would have been fewer wars."

It was the intention to make such an example of Germany as to discourage others from "ever again attempting to repeat this infamy."

There was a significant passage when the premier first mentioned the league of nations. Many of the members cheered, but seemingly nearly an equal number burst into laughter. "I beg of you to try it. I beg of you to take it seriously," the premier protested. "Proceeding," he declared, "if the world could be saved from the horrors of war, it would be a great achievement."

One member shouted, "Nobody wants it."

The premier paid special tribute to the work of the British expert advisers, which he said had been the object of the admiration of the nations at the conference, and ended with an appeal for the victory league, with one of his typical dashes: "Don't demobilize the spirit of patriotism."

Speaking of the territorial terms of the treaty, he said the territory taken from Germany was a matter of restoration. It was restoration of Alsace Lorraine, he said, taken forcibly the land to which its population was deeply attached; it was a restoration of Schleswig-Holstein, the taking of which he described as "the means of Hohenzollern frauds, robbing a helpless country in the pretence they were not doing it, and then retaining the land against the wishes of the people." He said the restoration of Poland, torn to bits by Russian, Austrian and Prussian autocracy and now reunited under the flag of Poland. And he added, "they are all territories which ought not to belong to Germany."

The British delegation, the premier said, has taken a stand resolutely opposing any attempt to put a predominantly German population under Polish rule, as it would be fool.

## Council Of Five Directs Conference

Paris. — Premier Clemenceau, Foreign Minister Balfour, Secretary of State Lansing, Foreign Minister Pichon, Baron Makino and Viscount Chinda of Japan, and Foreign Minister Tittoni of Italy, decided to constitute a new council of five. The council of five will have as its members Foreign Minister Balfour, Secretary Lansing, M. Pichon, Foreign Minister Tittoni and Baron Makino, the Japanese delegation.

The council will temporarily assume direction of peace conference affairs. A council of ten will not be constituted at the present.

Foreign Minister Tittoni made it clear at the meeting that Italy desires that all territory taken from Austria be definitely disposed of in the Austrian treaty. This immediately projects into the foreground "the Rhine question, which it had been hoped could be avoided."

While the council received the admission from Signor Tittoni that the new Italian delegates will be more considerate than the old, it was a distinct disappointment when Tittoni expressed Italy's desire to have all the territory taken from Austria definitely allotted in the Austrian treaty, as his foreshadowed a lengthy discussion. The council decided to appoint immediately a committee to execute the Austrian treaty, also a committee for the execution of reparations, and still a third to outline the Bulgarian frontier.

## The council will hear the remaining delegates and M. Makino, of the Russian ambassador at Paris, on the Romanian boundary, and especially the disposition of Bessarabia, a large part of which Rumania claims, and is at present administering, much against the Russian contention.

## The Russians insist that Rumania seized this territory under the guise of a specially created local government, which immediately ceased to exist after the Rumanians gained control.

## The agreements between France and the United States and France and Great Britain, for the defence of France against attack by Germany, it is understood, will not become valid until the Franco-British States convention is ratified by the United States senate.

## Belgium has named its two members of the commission which will revise the treaty of 1839, and the peace conference has requested Holland to name its members so that a meeting can be held soon at Paris.

lah to have another Alsace-Lorraine in Europe.

"I do not think anyone can claim the terms constitute injustice to Germany," the premier said, in discussing the reparations clause, "unless they believe justice in the war was on the side of Germany."

Having regard to the uses Germany made of her army, there is no injustice in scattering and disarming it. If the allies had restored the colonies to Germany after the evidence of ill-treatment of the natives, and the part the natives have taken in their own liberation, it would have been a base betrayal of the war.

"Then take the trial of those responsible for the war. If wars of this kind are to be prevented, those personally responsible for them, who have taken part in plotting them, should be held personally responsible."

"Therefore the entire decision that the man who undoubtedly had the primary responsibility, in their judgment at any rate, should be tried for the offences he committed in breaking treaties he was bound to honor, and that means bringing on the war."

"It was an exceptional course, and it is a pity it was, because had it been done before there would have been fewer wars. The allied countries unanimously decided that the tribunal—an international one—should sit at London for the trial of the person chiefly responsible for the war."

"Those guilty of submarine outrages ought to be punished, for the officers should know that they would be held personally responsible for offences against the laws of war."

Premier Lloyd George argued that it was not vengeance "to take every possible precaution against a recurrence of the war, and to make such an example of Germany as will discourage ambitious rulers and peoples from ever again attempting to repeat this infamy. The German people approved the war, and therefore it was essential in the terms to show, if nations committed any aggression against their neighbors, what lies in store for them."

The premier's reference to the United States and England agreeing to aid France if she should be attacked was loudly called out—should sit at to guarantees in the treaty, such as disarmament, which he declared should not be a "scrap of paper," the premier spoke on the bill dealing with the United States and British guarantee of the event of an unprovoked attack on France, saying he did not suppose any section of the House would oppose that.

Mr. Smith, provincial inspector of high schools, was in Blairmore on Monday last, and met the boards of Blairmore and Coleman districts that evening.

You will find it more to your advantage to trade with a live wire than with a dead one. You will find the names of the live wires on our ad. pages.

The Greenwood Lodge says that Jack Evans died in New Denver in October, 1892. He was the first man to cross the big divide in that town and his grave was dug by Ike Loughheed and Al Irwin.

At a Moravian settlement on Labrador the whole population of 100 Eskimos became ill with influenza and in a week 86 died, leaving only eight children, five women and one man.

We notice that even the official organ of District 18, U.M.W. of A., the District Ledger, will not print in full some of the popular expressions of the president. We had to make frequent use of the dash system about a year ago also.

Four hotel proprietors or managers and about half a dozen bartenders, of Fernie, are to spend six months working hard as— for the province of British Columbia for having offended the liquor act. Had they come to Alberta and offered their services in the same line of business they might have been better rewarded.

That the proposed five-day working week will be inaugurated in Nova Scotia, was the decision arrived at by the miners' convention in session at Glace Bay. Another decision of public interest was the voting of \$500 to assist the arrested Winnipeg labor leaders with the cost of their defense.

A grand sports day is promised by the U.F.A. and citizens of Cowley on July 30th. Included in the day's program will be polo matches and a return baseball game between Cowley and Blairmore teams. This latter should be a drawing card, judging from the interest manifested and the splendid game put up by the same teams at Blairmore on July 1st.

A big bull-dog started to eat up McCollom's Buster on Monday evening just in about the same style as Dempsey started to lick up all that was mortal of Jess Willard. About twenty referees judged the fight a draw, for the bull had Buster by the left ear and now Buster's left ear is about two inches longer than the right one, but hears no better.

Fools begin a lot of things that wise men finish.

Corp. Victor B. Hawkins has returned to Cowley from overseas.

Dress is sometimes a matter of form, and form is often a matter of dress.

Mr. and Mrs. W. J. Howe returned home from Calgary on Sunday morning last.

Another sign that the honeymoon is over is when he wants to occupy a chair all to himself.

A word to the wise may be sufficient, but the policeman often has to use a club on the otherwise.

The ratapayers of Trail, B. C., voted down a by-law intended to raise money for street grading.

There are only two kinds of women the bachelor is afraid of: the married ones and the single ones.

One of our exchanges suggests that Jess Willard should have practiced a little more of falling down, for every time he fell to the mat he did clumsily.

Sam says that when he went to school he used to take the teacher an apple every morning and she would kiss him. He says he never will forget the day he brought her a watermelon.

The officers of Blairmore Odd-fellows' lodge were installed at the regular session on Tuesday night, by District Deputy Albert Hallworth, of Bellevue, assisted by a number of past grandes of Bellevue lodge.

Mrs. Robert Thompson, of Nelson, and Mrs. K. Thompson-Watson, of Toronto, wife and niece of Robert Thompson, Coleman, were guests at the Cosmopolitan hotel, while the latter was presiding at the departmental examinations.

One of the latest fads of the girl at Crow's Nest Lake is the leglet watch—that is the watch is worn just below the knee instead of on the wrist as heretofore. When she wants to see the time she executes a sort of hoochee-koochee step and lifts her —. But there, just wait and see for yourself.

We turned to the prohibition question at the ball game the other evening and we were asked what was the difference anyhow between a glass of water and a glass of whiskey? We would say about two dollars. The only difference between wine and women is that wine improves with age.

The C. P. R. liner Gramplan, on which Rev. W.T. Young was crossing the Atlantic, hit an iceberg off the north-east coast of Newfoundland this morning and sustained damages necessitating the ship harboring at St. John's for repairs. Icebergs are more plentiful around Newfoundland than stool-pigeons around Alberta, and just as big a nuisance.

Anyone reading "Fish, Fishing and Fishermen" by George B. Felton in "Rod and Gun in Canada" for July, cannot help thinking of the good old days when a boy, in a piece of string and a willow switch made the best fishing tackle for shiners, chubs and rock bass. "The Albino Bass of The Ottawa" is the title of a real fishing story from the Dominion Capital which is one of the several good stories in the national outdoor magazine for July. The six illustrations showing the capture of a Newfoundland salmon are the best this year. They accompany a splendid article on the Humber River, Atlantic Salmon Streams. The interesting departments, Guns and ammunition, Fishing, Notes, Conservation, Kennel and Trap are all up to their usual standard and along with the second instalment of that interesting serial, "The Bear of Silver Dale" go to make up one of the best summer issues of the Canadian National sporting monthly. "Rod and Gun in Canada" can be obtained from any bookstore or direct from the publishers, W. J. Taylor, Limited, Woodstock, Ont.
